Dr. Miles' Nervine Restores Health.

UNCLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Restorative Nervine has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and used up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

Bodies of Soldiers Who Fell in the Late War With Spain.

NEARLY ALL IDENTIFIED

Instruction Issued by the War Department For the Benefit of Friends Who Desire the Bodies Shipped to Their Homes—Definite Word From General Otis Expected Soon.

Washington, Dec. 30.—General Ludington, quartermaster general, has completed arrangements for bringing back to this country the bodies of American officials and soldiers interred at and in the vicinity of Santiago de Cuba, Ponce and other points in Porto Rico, Manila and Honolulu. The graves have been carefully marked by officials of the quartermaster's department, who have gone over the several fields and have succeeded in identifying nearly all of the American dead. They will be brought on the government transports, and the first caskets will begin arriving about the end of January. In order that people throughout the country may make suitable preparation for securing the bodies of friends and relatives the quartermaster's department yesterday made the following statement:

Under a recent act of congress, the quartermaster general is now making preparations for the removal of the bodies of our officers and soldiers interred at and in the vicinity of Santiago, Cuba, Ponce and other points in Porto Rico, Manila and Honolulu. Duly authorized relatives or representatives of the families of deceased soldiers who wish the remains sent to their homes are requested to at once notify the quartermaster general of such desire, stating in full the name of the soldier, the company and regiment to which he belonged and the address of the town, county and state to which the remains are to be forwarded, and the name of parties in whose care the remains are to be shipped, so that they can be advised of the date of shipment when made. The act of congress referred to appropriated \$200,000 for the purpose. It seemed at one time that the return of the bodies to American soil would be impossible, as it was thought to be an undertaking attended with too many difficulties and dangers.

A strong popular sentiment on the subject developed, however, and in response to this congress made the provision of law for the return of the bodies. At the time the act passed (last July) summer heat made the removals inexpedient, but now that the cold winter months are on the danger of infection is entirely removed.

DEFINITE WORD

From General Otis as to Results in Iloilo Anxiously Awaited.

Washington, Dec. 30.—The war department is expecting definite word from General Otis tomorrow as to what has occurred at Iloilo. By that time General Otis will have heard from General Miller in command of the American force sent on this expedition. The officials about the war department do not appear to be apprehensive over the results, and there is no evidence of tension or alarm, although it is recognized that the situation at Iloilo is one which brings about a sharp and possibly a decisive issue between the insurgents and the United States forces.

What General Miller will do as to taking possession of the city, either with force or without, is not officially disclosed, and indeed, it is likely that considerable discretion as to what steps should be taken. But in the event of a clash between the United States forces and the insurgents, war department officials say there could be no doubt as to the outcome, as the Eighteenth infantry are among the regulars having

A Congregational clergyman, Rev. G. H. Akridge, of Pelham, Mitchell Co., Ga., in a letter written to Dr. Pierce, says: "We have been married six years without offspring, when my wife commenced taking Dr. Pierce's Favorite Prescription. I then wrote you for advice, and your instructions were to give 'Golden Medical Discovery' alternately with the 'Favorite Prescription.' This we did. The result is restoration of health and a ten pound boy. In honor of the world-famed Dr. Pierce, I have named him 'Pierce's Favorite Prescription.' Short of Postage. Washington, Dec. 30.—The postmaster at San Francisco has called attention to the large amount of mail matter accumulating there under the mistaken notion that domestic postage applies to Hawaii. Letters for residents of Hawaii still require the international postage of 5 cents per half ounce, though all mail to people in the United States military or naval service is transmissible at domestic rates.

Two Christian Petitions. Washington, Dec. 30.—Two petitions were presented to the president yesterday, one asking a reduction of the heavy armament of the Christian nations, presented by a delegation from the organized Protestant Christian churches of the world, and the other from panprotestantism, asking for arbitration in settling disputes between this country and Great Britain.

Cincinnati, Dec. 30.—Since Hon. W. J. Bryan accepted the invitation to address the Duckworth club at the annual Jackson banquet here on Friday night, Jan. 6, the Cincinnati chamber of commerce has invited him to address that body at noon on the same day. Since it is known that Mr. Bryan will be at the banquet other invited guests have accepted invitations to respond to toasts, including Congressman Lentz of Ohio and Sulzer of New York, Mayor Harrison of Chicago, Mayor Taggart of Indianapolis, Senator Goettle of Kentucky and General E. B. Finley of Bucyrus, O.

BROOKE IS FIRM

Cubans Will Not Be Allowed to Make Merry Jan. 1.

Havana, Dec. 30.—General Brooke has determined that no outrages upon the retiring or remaining Spaniards will be allowed and no Spanish stores will be sacked if American troops can prevent it on evacuation day, or any other.

A deputation of the Cuban Patriotic league waited on General Ludlow and presented a programme of six days' festivities, which they asked to be allowed to carry out.

After the deputation had withdrawn he conferred with General Brooke, and it was decided that it would be wisest not to allow any public manifestations on the part of the Cubans. General Ludlow prepared a written reply, pointing out the extreme need of maintaining order in the interests of the people of Cuba and the sympathy of the Americans with the desire of the Cubans to celebrate.

He urged, however, that while this feeling was perfectly natural, there was the danger of giving an opportunity to ill-disposed or thoughtless persons to make trouble, which would harm the cities industrial and commercial interests. On all these grounds, concluded General Ludlow, it was expedient that there should be no general public display of feeling.

Concentrating Troops at Cienfuegos. Havana, Dec. 30.—Captain General Castellanos and his staff will sail by the steamer Robal for Matanzas on Sunday to see the embarkation of the Spanish troops, after which the Robal will take the captain general to Cienfuegos. A battalion of the Forty-ninth Iowa volunteers has been ordered to proceed to Cienfuegos today to strengthen the United States garrison there temporarily, as 30,000 Spanish troops are concentrating at that point.

PONTIFICAL DOCUMENT

Sent to Cardinal Gibbons Concerning Religious Matters in America.

Rome, Dec. 30.—It is asserted here that a pontifical document concerning religious matters in America has been dispatched to Cardinal Gibbons and will be published in Europe as soon as it reaches him. Although dealing principally with local customs and modes of action in conformity with the religious liberty accorded in the United States, the document, it is understood, warns Catholics against the dangers of certain unorthodox regulations touching matters of conscience, such as were advanced by certain commentators upon the "Life of Father Hecker," and the dangers of doctrines like that of human evolution upheld by Dr. Zahm.

Harry Harmon Plunges From a Six-Story Building Into Chicago River.

Chicago, Dec. 30.—Harry Harmon, a bridge jumper, plunged from the top of a 6-story building into the Chicago river yesterday afternoon. Pedestrians crossing Rush street bridge saw a man walk to the end of a plank extended from the roof of the building and deliberately fall backwards toward the water. The feat was performed privately to settle a wager.

The man fell almost perpendicularly from the plank. It seemed he would strike the dock and be crushed, but the diver fell safely. A few seconds later he was hauled to the landing by means of a rope.

Sampson Still in Feeble Health.

Washington, Dec. 30.—Rear Admiral Sampson called at the navy department yesterday afternoon and had a long conference with Secretary Long in regard to conditions in Havana and naval affairs generally. Admiral Sampson is a victim of the grip and although much better than he has been for the past few days, is still in feeble health and will undoubtedly require a long rest before he will be able to resume active duty. Unless he should suffer a relapse and his health give way he will be continued in command of the North Atlantic station with the New York, now at New York, as his flagship.

HE FORGED CHECKS

Officers Looking For a Rockford Insurance Company Clerk.

Rockford, Ill., Dec. 30.—Rockford officers are searching Chicago with warrants for the arrest of George S. Hart, son of J. W. Hart, a prominent citizen of this city and a leader in the state prohibition party, on the charge of forgery. Young Hart has been employed as a clerk in the office of the Rockford Insurance company, of which his brother-in-law, Charles E. Sheldon, is secretary. Christmas day, Hart, it is alleged, stole 33 blank company checks from the office, forged the names of his brother-in-law and Harry Allen, the cashier, to them, and succeeded in getting them cashed about town, the checks being from \$5 to \$50 each, and footing up about \$1,000. Then he wrote a note to his wife saying he would not return until he could make a winning and pay his debts. Wine and cards were the cause of his downfall.

LONDON IS IN PERIL

British Capital is Said to Be in Great Danger of Subsidence.

SUBSOIL IS HONEYCOMBED

With Underground Railroads, Sewers and Subways—Great Rifts in Hyde Park—Roadway of Fleet Street Sinks For a Hundred Yards—Large Edifices Show Cracked Walls.

London, Dec. 30.—London is in danger of subsidence. This is a startling assertion to make. But so grave has the peril become that one of the first measures with which the parliament will be called upon to deal when it meets a few weeks hence will be a bill, the object of which is to put a check, if not an absolute stop, to the alarming increase in the process of honeycombing the foundations and subsoil of the British metropolis. What with two and even three layers of underground railroads, the one below the other, and huge conduits, tunnels, sewers and subways of every description, the subsoil of London is honeycombed to the depth of nearly 100 feet. The result is beginning to be felt, and is giving rise to no end of alarm.

The other day the papers recorded an alarming subsidence in Hyde park, where the ground suddenly showed a rift of the length of 200 feet in two directions, the cleft being about 20 feet deep. Then, too, the roadway suddenly sank last week for a length of about 100 yards on one side of Fleet street, gravely interfering with the traffic of that crowded thoroughfare, while only the police reports and the returns of the building inspectors can convey any idea of the large number of big edifices in the city and of mansions, both great and small, in the resident districts that show cracked walls, that are tottering, or which are actually wrecked by subsidence of the ground.

As yet nothing is known of any injury to Westminster Abbey, the houses of parliament or St. Paul's cathedral, but the gravest fears are entertained with regard to their safety, and no one need be astonished to learn that their solidity has become affected by the imprudent interference with their foundations. Inasmuch as we hear from time to time in England of projects to endow the leading cities of the United States with underground railways and contrivances for dealing with the traffic, it will be well to take into consideration in America the fate that now stares London in the face.

Florida Governor Puzzles the British.

London, Dec. 30.—The war office here is puzzled by an invitation received from the governor of Florida to send representatives to the national military convention which is to take place at Tampa, Fla., on Feb. 8. The British officials have been endeavoring to ascertain the purpose of the convention and finally decided to write to the government of the United States on the subject asking for information prior to coming to a decision.

Advices Insurgents to Defy Americans.

London, Dec. 30.—The Chronicle, editorially discussing the situation at Iloilo, says: "It would be advisable for the insurgents to defy the Americans. The issue would then be squarely raised and settled once for all in one short, sharp action which would probably bring the crazy Filipinos to their senses. After this the men of peace could proceed with their business."

AFTER MORRILL'S SHOES

Vermonters Who Are Seeking Appointment to the Senate.

Montpelier, Vt., Dec. 30.—Among the candidates for appointment by the governor to the late Senator Morrill's seat are former Governor William P. Dillingham of Waterbury, former Governor C. S. Page of Hyde Park, C. S. Prouty of Newport, Judge Henry C. Ide of St. Johnsbury and Congressman W. W. Grout. Senator Morrill was opposed to the ratification of the peace treaty. His successor, whoever he may be, is almost sure to be in favor of it. Governor Smith's appointment of a successor holds good until 1900, when the legislature convenes.

OIL WELL SHOOTER

Blown to Pieces by an Explosion of Nitroglycerin.

Buffalo, Dec. 30.—Charles Newton of Bradford, Pa., was blown to pieces while shooting an oil well at Orchard Park, near this city. Newton had brought a large quantity of nitroglycerin from Bradford, and it was while thawing the explosive that the accident occurred. Newton's helpers were several hundred yards away at the time and escaped injury. A man named Fleischer, who was in the vicinity, had his ear drums broken by the concussion.

Surprise to Turfmen.

Louisville, Dec. 30.—It was learned yesterday that a syndicate of local turfmen, have formed a new racing association and that by Feb. 1 a winter running meeting will be in full blast in Louisville with poolselling and all other privileges incident to a race meeting. This fact came as a sensation to local sporting men in view of the recent closing of the Louisville poolrooms and will be a big surprise to turfmen all over the country.

\$60,000 STOLEN

Wells-Fargo Express Company Agent Missing at San Antonio.

San Antonio, Tex., Dec. 30.—The local office of the Wells-Fargo Express company is out a money package containing \$60,000. The money arrived Wednesday morning and was given to C. A. Beeler, the Wells-Fargo money delivery clerk, to hand over. Beeler started for the depot and was seen enroute. Four hours after his departure his wagon was found five miles west of the city in a thicket, the horse almost dead from the effects of hard driving. There was no evidence of a struggle in the vicinity where the vehicle was found. Beeler had been in the employ of the company for nine years and enjoyed the confidence of all. He spent several years on the frontier as a cowboy. His friends stoutly assert that he is a victim of foul play. Superintendent Taft admits that the loss will reach the sum stated.

UNIQUE CASE

Fishermen Seeking to Libel a Body Found at Sea as Derelict.

Boston, Dec. 30.—A unique admiralty case was heard in the United States district court yesterday, namely a libel brought for salvage for the saving of United States and French money of the value of \$1,050, found by Gloucester fishermen on what the law terms a derelict at sea. The derelict in the case was the dead body of a man, believed to have been a victim of La Bourgogne disaster of last July. The body has not been identified, however.

The libel was that brought by the owners of the fishing schooner William H. Cross, in behalf of themselves, her master and crew of 14 men against the property found. After hearing the case Judge Lowell took the matter under advisement.

OPPOSED TO EXPANSION

United States Senator White of California Expresses Himself.

Los Angeles, Cal., Dec. 30.—United States Senator Stephen M. White left yesterday for Washington. In an interview with a reporter regarding the Philippine question, he said: "I am utterly opposed to the acquisition of distant and barbaric lands. It appears to me foolish to embark on a line of policy which we heretofore have never done. It is my honest conviction that the carrying out of the expansion question will prove disastrous to the republic. The result may be postponed for years, but it will be reached if we abandon our precedents."

KILLED HIMSELF

H. Clay Montgomery of Decatur, Ill., Suicides in Chicago.

Chicago, Dec. 30.—H. Clay Montgomery, a prominent merchant of Decatur, Ill., and ex-treasurer of Macon county, shot and killed himself yesterday in a room at the Great Northern hotel. Business troubles are supposed to have been the cause. Montgomery left a sealed letter for his brother, who resides in Boston, for his now in the west.

Colebrook Bank Failure.

Colebrook, N. H., Dec. 30.—Bank Examiner E. H. Carroll late yesterday confirmed the news from Washington that the Colebrook National bank had failed, and stated that he had been appointed temporary receiver. He declined to give out any further statement, but a bank official said the examination of the books, which has been in progress since Tuesday, has disclosed irregularities covering a period of five years. The amount of the shortage was placed at \$30,000.

Germans Apprehensive.

Berlin, Dec. 30.—There is much comment here at the reported arrival of an American warship at Apia, Samoa, the newspapers regarding it as a sign that President McKinley means to carry out the programme outlined in his recent message to congress. The Vossische Zeitung says: "No doubt Great Britain will support America and thus paralyze the slowly acquired German preponderance. There is no longer a chance of Germany securing exclusive control."

Peoria Transcript Sold.

Peoria, Ill., Dec. 30.—The Peoria Transcript and Evening Times were purchased yesterday by H. M. Pindell. Both papers will cease publication at once. The Transcript is the oldest paper in the city, but of late years has been a losing investment. The Times was started about four years ago as a penny evening sheet and was controlled by the Transcript company.

COLD BLOODED MURDER

Bloomfield (Ind.) Doctor Stabs a Woman to Death on the Street.

Bloomfield, Ind., Dec. 30.—Dr. E. E. Gray yesterday afternoon killed Mrs. Lizzie Skinner on the streets, near the depot and in plain view of many people. He stabbed her four times with a surgical knife and she died instantly. He had made threats that he would kill her. He was watching for her at the depot, as she was coming to take the train. After the killing he immediately gave himself up. Mrs. Skinner left a former husband on account of the doctor, and he has deserted a wife and family for her. It was as cold-blooded a murder as was ever committed. Dr. Gray is about 30 years old, and a son of J. W. Gray, one of the prominent physicians of the county. The excitement is intense.

BLIND INSTITUTION

Legislative Committee Will Recommend Present Site Be Sold.

Indianapolis, Dec. 30.—The legislative committee, consisting of Senator Goodwine and Representatives Routs and Herod, has practically completed the work of investigating the state institutions as to their needs and the appropriations required, and is now closing up its report.

The blind institute has requested a large sum for repairs. The committee will not recommend a large appropriation for that purpose, but that the present building and grounds be sold and that the institution be moved further from the heart of the city.

It is estimated that the present site is worth \$50,000. There are 140 pupils in this institution. The deaf and dumb institute is found to be so crowded that the children are compelled to sleep over each other in order to get to bed.

ATTORNEY GENERAL TAYLOR

Watching the Marion Tyler Inquest at Scottsburg.

Scottsburg, Ind., Dec. 30.—Attorney General Taylor is here attending the coroner's inquiry into the lynching of Marion Tyler, the Indianapolis streetcar man who was mobbed last Saturday for attempting to murder his wife. Not much is expected to come of the investigation, but the attorney general will obtain what information he can, and it will be the preliminary step which the state authorities will take toward helping the officers of Scott county in bringing the lynchers to justice.

Hunted For a Gas Leak.

Marion, Ind., Dec. 30.—A son of L. P. Reese, a merchant of this city, was hunting for a gas leak in the basement of his father's store yesterday. He carried a lighted torch, which ignited the gas and an explosion followed. The building was but slightly damaged, but young Reese was badly burned about the face and hands.

FRIDAY, DECEMBER 30, 1898.

The Indianapolis Sentinel is still for Hon. J. Frank Hanly to succeed Senator Turpie and accords to him the caucus nomination nearly every day.

Senator Lambert, of Bartholomew and Decatur, will introduce at coming session of the legislature to establish an asylum for the incurable insane at Columbus. It is believed by many that the state should have such an institution.

The legislative committee of the State Teachers' Association that lobbied for an indorsement of their support of the narrowly constructed Geeling bill at Indianapolis this week is composed of two members of the state board of education and a member of the board of trustees of the State University. Not very broadly representative of the school interests of Indiana.

There was quite a good deal said at the council meeting last night of the needs of the city of Seymour to better protect the property of our citizens from fire. Much that was said was quite in point. It is a subject for very careful and thorough consideration. Our volunteer fire department does well with the means at hand, but many of the property owners of the city believe that better means should be provided. This should, and we believe will be duly considered by the council from every standpoint.

The Government of the Philippines
It is not in the least true that "we" have "absorbed" ten or twelve hundred Malays by virtue of taking international control of the Philippine Islands. The ocean is just as wide as it was last year. Those Malays will not attempt to decide disputed presidential elections in this country, and there is probably not a human being of any complexion who is proposing to bring about any such consummation. The people of the Philippines will not flock to the United States under the new era much if any more freely than they flocked to pain under the old era. We shall not be precipitated into any very exhaustive wars for their subjugation, because we have no desire to subjugate them. There is no intention in this country to exploit them, and no one wishes to make an empire out of them. There can be no harm in the attempts to forecast in advance all the successive stages of experience through which we shall pass in our endeavor to improve the general condition of things in those islands, and no great benefit. We shall simply have to keep in mind the lesson that the old man in the fable taught his sons, and break our sticks one at a time.—From "The Progress of the World," in the American Monthly Review of Reviews for January.

Newspaper Woman's Work.
"In addition to her news work the woman reporter probably does 'specials' for the Sunday edition," writes Elizabeth G. Jordan of "What it Means to be a Newspaper Woman," in the January Ladies' Home Journal. "There is no reason why her income should not be thirty-five or forty dollars a week at the end of the second year. The reporter is in constant touch with interesting phases of life. However hard her work may be, it is rarely monotonous. She has an unrivaled opportunity for the study of men, women and human nature. If she has ideals, (and as a rule she has), it is no harder to live up to them in her profession than in others."

PRICE DRYING.—Ladies' wear, men's wear, chenille curtains. Work guaranteed. Sherman Day, South Chestnut street.

CITY COUNCIL.

The City Dads Hold Their Last Session
of the Old Year.

Council met in regular session last night with Mayor Mills in the chair and all councilmen present.

Minutes read by the clerk and after some discussion on some provisions in resolution relative to electric light plant were adopted.

On the recommendation of the committee on accounts, claims and printing the bill of Smith & Remy for \$25.20 for printing brief in the case of the B. & O. S-W. railway against the city was allowed.

Ordinance providing for the issue of bonds to pay for the paving of the alley east and west through block W, from Indianapolis avenue to Chestnut street was introduced, advanced and adopted.

The street commissioner was directed to repair the pump at the corner of Walnut and Brown streets.

On the suggestion of DeGolyer, which was approved by all the councilmen, the grade committee was instructed to apportion the work of sweeping the brick streets as nearly equal as possible among the six men employed to do that work. The two brick alleys are to be included in the apportionment.

The city marshal was instructed to notify the contractors who have left brick, mortar boxes and other rubbish now obstructing the streets and alleys to remove the same in three days.

The brick left in the street at the corner of Third street and Indianapolis ave. was ordered to be moved within five days.

In Memoriam.

Hall of Seymour Lodge, No. 204 I. O. O. F. Seymour, Ind., Dec. 27, 1898.

"Like the sands of the hour glass, we are passing away." It becomes our painful duty to record the passing away of another honored and respected member of our Order. Bro. James L. Gardner, who departed this life on the 12th day of December, 1898, was a lifelong Odd Fellow; the first Noble Grand of Seymour Lodge No. 204, and during its infancy, contributed much by his wise counsel toward guiding the lodge safely through the shoals and breakers incident to newly organized lodges. It is with feelings of profound regret that we are compelled to record his death, for we realize that our lodge has lost a valued and trusted member, and the city of Seymour has lost a good citizen and friend, and we, in common with the whole community, mourn our loss.

In view of above:

Be it Resolved, That we extend to the bereaved wife and relations of the deceased brother, our tenderest sympathies in this time of bereavement, and that these resolutions be spread upon the minutes of the lodge and be published in the newspapers, and that marked copies of said papers be sent to the family.

Important Ruling.

Judge Hord recently made what the legal fraternity consider rather an important ruling. Recently Joseph I. Irwin brought suit vs. Eli Marquette, to recover \$400, the amount of a check drawn by him, payable to Scott Bedgood, payable by the First National bank at Seymour. Bedgood, though, brought the check here and cashed it at Irwin's bank. The check was then sent to Seymour for collection and payment refused from the fact that Marquette had notified the bank to dishonor it, as it was given to Bedgood in payment of a gambling debt. The statutes prohibit an enforced collection by law of a gambling contract debt, and as it was alleged in defendant's answer to the complaint that the \$400 check was issued in payment of a debt incurred by a game of cards, commonly known as "poker," its collection was barred by statute.

Plaintiff's attorney set up the plea that this theory of the state would not hold good as against an innocent party who had cashed the check without any knowledge of the nature of the debt for which it was drawn in payment. Judge Hord, though held defendant's answer good. Attorneys claim the point is a very close one, and will at once take case to the supreme court to have that tribunal pass upon it.—Columbus Times.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

In its advanced and chronic form a cold in the head is known as Nasal Catarrh and is the recognized source of other diseases. Having stood the test of continued successful use, Ely's Cream Balm is recognized as a specific for membranous diseases in the nasal passages, and you make a great mistake in not resorting to this treatment in your own case. To test it a trial size for 10 cents or the large for 50 cents is mailed by Ely Brothers, 56 Warren Street, New York. Druggists keep it.

This Is One of the Most Remarkable True Statements On Record. It is made by an Indiana Man.

He has spent \$800 in patent medicines and doctor bills in his last bad cure. One doctor said "w.r.h of Morrow." Kid-ne-o-ids did the work. Many Seymour people are interested in the story of Mr. Jos. O. Morrow, who lives at 625 Jackson St., Columbus, Ind. Listen to the recitation of his case and perhaps you will find you have had a similar experience. "For the past three years I have been afflicted with kidney complaint. My symptoms were a following: painful kidney action, urinary disturbance and nervousness from which I was unable to sleep well at night and which produced a general broken down condition of my health. My condition was so serious that I would lose two weeks from work at a time. I grew so weak that I felt unable to perform my daily work. I have taken several kinds of Kidney Pills and all the various kinds of kidney remedies I ever heard of or read about without getting any relief. A short time ago I read about Morrow's Kid-ne-o-ids and my wife advised me to give them a trial. I got a sample package and used them being greatly relieved. Up to date I have taken less than a dollar's worth of Kid-ne-o-ids. I consider myself cured. During the condition of my illness I have spent fully \$500 in doctor bills and patent medicine which amounted to nothing. This in key comparison which is worth your time and consideration. My wife declares that I appear like a new man since I have used Morrow's Kid-ne-o-ids. You are able and not so nervous and irritable. You may also understand our hearts are filled with gratefulness for the relief of this great burden, which made our home miserable and unhappy."

To confirm the statement of Mr. Osborn we would give you the following: Morrow's Kid-ne-o-ids are put up in wooden boxes with 50 cents and are never sold in bulk. Morrow's Liver will cure kidney and bladder troubles. Both these remedies are for sale by all druggists and at Alpha Cox's Drug Store, or will be sent by mail on receipt of the price. John Morrow & Co., Chemists, Springfield, Ohio.

AUTHORS' MANUSCRIPTS.

Not Necessary For Editors to Read Them From Beginning to End.

Once more the tale goes round of the author who sent a story to three journals and had it returned by every one without having been read. He knew it because he had pasted two of the leaves together. Very likely. We do not think of reading through a half or a quarter of the articles that are sent to us. It often does not take half a minute to discard what one knows he doesn't want. It is an old saying that one does not need to eat a whole joint to learn whether it is tainted.

It would be a revelation to some of these writers to see how fast an experienced and conscientious editor can, at times, go through a big pile of essays, stories or poems. The title is often enough, and he would say, "We don't want an article on that subject." The next article begins with a page or two of commonplace introduction, and that is thrown aside in half a minute's inspection without turning more than the next page. The next begins with a platitude—"We can't print that stuff."

The first verse of this next poem has false meter and is tossed aside. The next begins in schoolgirl style, with "dove" and "love;" it is not read through. Of the next the editor reads ten lines. It is simply a dull description of a stream in a forest—not wanted. The next poem begins in a fresh way, seems to be constructed according to the rules, is pretty good. It is put one side to see if other better poems will crowd it out. The next is a story. The first page is promising, but the second shows a coarse strain, and the reading stops there.

Ten articles are decided upon, and with sufficient good judgment, in ten minutes, for a minute to a manuscript is often twice as much time as it needs. It does not take that long for a dealer to stick an iron skewer in a smoked ham, draw it out and smell of it. Not one article in a dozen perhaps needs to be read through.—New York Independent.

INSECTS AS HOODOOS.

They Keep Settlers Away From Many Parts of the World.

Nothing could more strikingly illustrate the importance of small things than the large role which is now attributed to the mosquito in the etiology of some of the most serious and widespread diseases to which the human race is subject. It is truly said that what prevents the successful colonization of many tropical countries and what throws the greatest obstacles in the way of civilization and of good government in vast regions of central Africa is not climate, nor distance from home and not unfriendliness on the part of the natives. The obstacle is malaria, and now we find that the prevalence of malaria, so far as man is concerned, depends on the mosquito, and that this pestilent little insect, in addition to irritating and annoying, is the means by which the poison of malaria is propagated and distributed.

For years back botanists have known the important part played by birds in the scattering of seed and of insects in the distribution of the pollen of plants, and it seems not unlikely that pathologists will have to recognize in a much larger degree than has till lately been done the large part taken by the subordinate forms of life by which we are surrounded—our cattle, our horses, our dogs and cats, our flies, our mosquitoes, and perhaps even our fleas—in distributing disease from man to man, and, as is stated in regard to the mosquito and malaria, in deciding whether the extension of our empire over great areas of the globe's surface shall be possible or not.—Hospital.

What He Found.

"I've opened about 3,000,000 oysters in my day," said the old oysterman who sells you the real genuine unfattened and unspiced "salts," a penny apiece, in the shadow of one of the big market buildings, "and I have never found a pearl in one yet."

"But I've found something just as good as pearls," he added with a wink. "I have found four nice paying tenement houses and good balances in eight savings banks. There is a good deal in an oyster shell besides pearls, young man, if you will look close."—New York World.

WARRANT FOR \$107,102.55

Issued by the Government to Indiana to Pay War Claims—Aged Swindler Who Represented Himself as a Relative of Colonel Dick Thompson—Pensions Granted Old Veterans.

Summitville, Ind., Dec. 30.—The city jail burned here yesterday and Fred Barton of Anderson, who had been locked up for being drunk, perished in the flames. When the charred body was taken from the ruins, the legs and arms were entirely gone. Barton was 24 years old and unmarried. The origin of the fire is unknown. The building was a frame structure.

AGED SWINDLER.

Represents Himself as a Relative of Colonel Dick Thompson.

Terre Haute, Ind., Dec. 30.—D. D. Kelly, arrested for many petty swindles by representing that he was a relative of former Secretary of the Navy Thompson, has been identified as the man known as Mulcahy and Miller in St. Louis, where he left a number of victims. He also was in Sullivan county, south of here, representing that he was a brother of a judge in an adjoining county, and borrowed money and got checks cashed. He is well educated. Acting Chief Pickel of St. Louis sent his picture and Bertillon measurement, and says that in September he got \$5 from a woman by representing that he would give her the position of housekeeper in a boardinghouse at Panama, and \$50 from a man on the promise of making him manager of the boardinghouse. He was not prosecuted out of sympathy for his old age. He is 82 years old.

K. OF P. ARRESTED.

Was Treasurer of the Endowment Rank at New Albany.

New Albany, Ind., Dec. 30.—Thomas Smith was arrested yesterday on a charge of forgery. He was treasurer of Friendship lodge, and of the endowment rank, Knights of Pythias, and it is alleged that he was short about \$400 in his accounts one year ago. As the accusation runs, a short time before the alleged shortage was discovered, Smith forged the name of George S. Hice to his bond as treasurer. The last grand jury returned an indictment against him, and he has been expelled from the order. The accused is a well-known citizen. The arrest has caused great surprise.

WARRANT FOR \$107,102.55.

Valuable Piece of Paper Found in the Mail of Indiana's Governor.

Indianapolis, Dec. 30.—In the mail of Governor Mount yesterday was a warrant for \$107,102.55. It was about the size of a bank check. Colonel Charles E. Wilson, the governor's private secretary, goodlymindedly offered it to the clerks as a belated Christmas present. The warrant was from the war department, and was a part payment of Indiana's war claim. The amount will be turned into the general fund of the treasury and used to make a payment on the state debt.

He also sustained a broken shoulder and internal injuries in the fall.

Output of Locomotives and Cars.
The Railroad Gazette, in its yearly statistics of the output of locomotives and cars, states that during the past year all the contracting locomotive shops in the United States outside of the railroad shops contracted 1,875 locomotives, as against 1,251 last year.

This is an increase of 624. This increase comes within 71 of representing the total output of 1894, and is greater by 218 than the increase of 1895 over 1894, which increase was the largest since 1877. The total output of cars will aggregate 105,153, of which 99,804 are freight, 500 passenger and 4,650 street cars. Of these 1,663 were for export. The past year was the best for the car-building industry since 1890, the record-breaking year, when the total number of freight and passenger cars built by contracting firms was 103,000.

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more grain-O you give the children the more health you distribute through their systems. Two Pointed Questions Answered.
What is the use of making articles better than your competitor if you can not get a better price for it?
Ans.—As there is no difference in the price the public will buy only the better so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know you make it?
If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgement on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

There is a Class of People.
Who are injured by the use of coffee. Recently there has been placed in all grocery stores a new preparation called GRAIN-O made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over 1/4 as much. Children may drink it without great benefit. 15c. and 25c. per package. Try it. Ask for GRAIN-O.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says: "A man came into our store the day and said, 'I want a bottle of that stuff that saves children's lives. I read in the News about it. The children may get sick when we can not get the doctor enough. It's the medicine you sell for croup.'" He alluded to Chamberlain's Cough Remedy and bought a bottle before he left the store. For sale by W. Milhous.
